Zubaidah Rent-A-Car

Zubaidah maintains a unique selling proposition in the rental automobile industry, describing its “greatest idea as personal service.” Ahmad, the founder of Zubaidah said “We put customers first because if they are satisfied, they will come back. And, by making sure the employees are happy, well informed, they provide the best service possible. If we put the customers and the employees first the bottom line will happen.

Zubaidah claims to offer the perfect rental package, as symbolised by its now-famous wrapped car. The focus is on three key benefits for the customer:

1. Extraordinary convenience in the form of nearby locations and picking up and dropping off customers at their homes, office, or repair shops free of charge
2. Excellent rates made possible by the operating strategy
3. Exceptional selection of vehicles with something for every occasion

Focus on convenience is now facilitated by a network of offices located within 15 minutes of 90 percent of the West Malaysia population. Still, according to Ahmad, the focus is on the customer: “After all, other companies rent, lease and sell pretty much the same cars as Ahmad. The difference is, their business is cars and ours is people; which explain why so much of our energy goes into recruiting, hiring, and training.”

Zubaidah Rent-A-Car faces competition from a variety of sources, most notable of which are the traditional airport car rental companies such as Avis, Hertz, and Budget. Now that Zubaidah Rent-A-Car has become the industry leader in terms of fleet size and market presence, management faces the challenge of maintaining its performance level.
